f. Authority to collect information. A Federal law, Executive Order of the President (EO), or DoD requirement must authorize the collection and maintenance of a system of records.

g. Summary of DoD information system or electronic collection. Answers to these questions should be consistent with security guidelines for release of information to the public.

(1) Describe the purpose of this DoD information system or electronic collection and briefly describe the types of personal information about individuals collected in the system.

The Total Army Personnel Data Base – Active Officer is the central database for all information pertaining to Active Army commissioned and warrant officers. It contains a set of logically integrated and physically distributed databases. TAPDB-AO is updated daily (Monday thru Friday), and HRC OPMD is the functional proponent. A separate database supports each Army component with their personnel needs and a core database supports mobilization and other systems requiring cross component (Total Army) personnel data. TAPDB-AO supports the Active Army Officers service members.

Personal information maintained by the system includes personal, financial, employment, education, and military.

(2) Briefly describe the privacy risks associated with the PII collected and how these risks are addressed to safeguard privacy.

All systems and environments have threats that seek to exploit and cause harm to the information. Some threats are natural, some are inherent in the system design, some can be attributed to unauthorized personnel, and some to authorized personnel who make mistakes. Four general categories of threats exist: human-intentional, human-unintentional, structural, and natural. The system is maintained in a controlled facility. Appropriate technical, personnel, physical and operational safeguards are in place for the access, collection, use and protection of information. Due to the level of safeguarding, we believe the risk to individuals' privacy to be minimal.

h. With whom will the PII be shared through data exchange, both within your DoD Component and outside your Component (e.g., other DoD Components, Federal Agencies)? Indicate all that apply.

☒ **Within the DoD Component.**

Specify. Staff principals in the chain of command, the Department of the Army Inspector General, the Army Audit Agency, the US Army Criminal Investigation Command, the US Army Intelligence and Security Command, the Provost Marshall General, and the Assistant Secretary of the Army for Financial Management and Comptroller.

☒ **Other DoD Components.**

Specify. The Department of Defense Inspector General, Defense Manpower Data Center, and the Defense Criminal Investigative Service.

☐ **Other Federal Agencies.**

☒ **Contractor** (Enter name and describe the language in the contract that safeguards PII.)

Specify. Science Applications International Corporation contractual language acknowledges

the sensitivity of PII and describes the importance of protecting and maintaining the confidentiality and security of a Soldier's PII. The contractual language keys on training as a fundamental element in creating awareness and understanding of PII and why it is important to control and safeguard. The language also stresses securing PII material and equipment housing PII at the end of a work day. Contractual language directs and requires each SAIC employee in support of the database to have a valid Secret clearance prior to working on the program. The contract specifically states that contractor personnel will adhere to the Privacy Act, Title 5 of U.S. Code Section 522a, and all applicable agency rules and regulations.

☐ **Other** (e.g., commercial providers, colleges).

Specify. N/A

i. Do individuals have the opportunity to object to the collection of their PII?

☐ **Yes** ☒ **No**

(1) If "Yes," describe method by which individuals can object to the collection of PII.

N/A

(2) If "No," state the reason why individuals cannot object.

Since data are not collected directly from individual Soldiers they are not provided an opportunity to object to its collection from TAPDB-AO. However, Soldiers implicitly consent to capture and use of that information at the time of employment or enlistment in the Department of the Army.

j. Do individuals have the opportunity to consent to the specific uses of their PII?

☐ **Yes** ☒ **No**

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

N/A

(2) If "No," state the reason why individuals cannot give or withhold their consent.

Since data are not collected directly from individual Soldiers they are not provided an opportunity to consent to its use by TAPDB-AO. However, Soldiers implicitly consent to capture and use of that information at the time of employment or enlistment in the Department of the Army.

k. What information is provided to an individual when asked to provide PII data? Indicate all that apply.

☐ **Privacy Act Statement**	☐ **Privacy Advisory**
☐ **Other**	☒ **None**

Describe each applicable format.

TAPDB-AO only extracts existing PII data from other Army information systems. Since data are not collected directly from individual Soldiers they are not provided either a Privacy Act Statement or Privacy Advisory. However, Soldiers implicitly consent to capture and use of that information at the time of employment or enlistment in the Department of the Army, at which time they are provided a Privacy Advisory.

NOTE:

Sections 1 and 2 above are to be posted to the Component's Web site. Posting of these Sections indicates that the PIA has been reviewed to ensure that appropriate safeguards are in place to protect privacy.

A Component may restrict the publication of Sections 1 and/or 2 if they contain information that would reveal sensitive information or raise security concerns.
