(2) Cite the authority for this DoD information system or electronic collection to collect, use, maintain and/or disseminate PII. (If multiple authorities are cited, provide all that apply.)

(a) Whenever possible, cite the specific provisions of the statute and/or EO that authorizes the operation of the system and the collection of PII.

(b) If a specific statute or EO does not exist, determine if an indirect statutory authority can be cited. An indirect authority may be cited if the authority requires the operation or administration of a program, the execution of which will require the collection and maintenance of a system of records.

g. Summary of DoD information system or electronic collection. Answers to these questions should be consistent with security guidelines for release of information to the public.

(1) Describe the purpose of this DoD information system or electronic collection and briefly describe the types of personal information about individuals collected in the system.

Assignment Satisfaction Key (ASK) is a self service web-based application that enables Active Army enlisted Soldiers to directly update the Total Army Personnel Data Base - Active Enlisted with assignment preferences, and allows Soldiers to volunteer for duty locations and special duty.

PII collected includes personal, contact, and military record data.

(2) Briefly describe the privacy risks associated with the PII collected and how these risks are addressed to safeguard privacy.

All systems and environments have threats that seek to exploit and cause harm to the information. Some threats are natural, some are inherent in the system design, some can be attributed to unauthorized personnel, and some to authorized personnel who make mistakes. Four general categories of threats exist: human-intentional, human-unintentional, structural, and natural. The system is maintained in a controlled facility. Appropriate technical, personnel, physical and operational safeguards are in place for the access, collection, use and protection of information. Due to the level of safeguarding, we believe the risk to individuals' privacy to be minimal.

h. With whom will the PII be shared through data exchange, both within your DoD Component and outside your Component (e.g., other DoD Components, Federal Agencies)? Indicate all that apply.

Within the DoD Component.

Specify. Staff principals in the chain of command, Army Inspector General, Army Audit Agency, US Army Criminal Investigation Command, US Army Intelligence and Security Command, Provost Marshall General, and Assistant Secretary of the Army for Financial Management and Comptroller.

Other DoD Components.

Contractor (Enter name and describe the language in the contract that safeguards PII.)

confidentiality and security of a Soldier's PII. The contractual language keys on training as a fundamental element in creating awareness and understanding of PII and why it is important to control and safeguard. The language also stresses securing PII material and equipment housing PII at the end of a work day. Contractual language directs and requires each SAIC employee in support of ARTRAMS to have a valid Secret clearance prior to working on the program. The contract specifically states that contractor personnel will adhere to the Privacy Act, Title 5 of U.S. Code Section 522a, and all applicable agency rules and regulations.

Other (e.g., commercial providers, colleges).

Specify.

i. Do individuals have the opportunity to object to the collection of their PII?

Yes **No**

(1) If "Yes," describe method by which individuals can object to the collection of PII.

Data are collected from individuals via direct access to the application, and they can object to its collection by refusing to provide it. ASK also retrieves data from information systems rather than directly from individuals, and in those cases Soldiers are not provided an opportunity to object to collection of their data. However, Soldiers have an opportunity to object to collection of their PII at the time of employment or enlistment in the Department of the Army.

(2) If "No," state the reason why individuals cannot object.

N/A

j. Do individuals have the opportunity to consent to the specific uses of their PII?

Yes **No**

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

Data are collected from individuals via direct access to the application, and they consent to use of their PII by providing the data. ASK also retrieves data from information systems rather than directly from individuals, and in those cases Soldiers are not provided an opportunity to consent to specific use of their data by the system. However, Soldiers are provided that opportunity and consent to use of their data at the time of employment or enlistment in the Department of the Army.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

N/A

k. What information is provided to an individual when asked to provide PII data? Indicate all that apply.

- Privacy Act Statement Privacy Advisory
 Other None

Describe each applicable format.

The following Privacy Act Statement is displayed when Soldiers access the ASK website:

"PRIVACY ACT STATEMENT
AUTHORITY: 5 USC 552a as amended, AR 340-21
PRINCIPAL PURPOSE(s): To provide a means for Soldiers to update personal information on the Personnel database of record for the Army.
ROUTINE USE(S): Data is used to contact Soldiers in reference to Permanent Change of Station (PCS) moves and professional development opportunities.
DISCLOSURE: Voluntary. However, failure to provide all the requested information could affect future PCS moves and professional development opportunities."

ASK retrieves some data from information systems rather than direct from individuals, and in those cases neither a Privacy Act Statement nor a Privacy Advisory can be provided.

At the time of enlistment in the Army Soldiers implicitly consent to capture and use of their PII data, and at that time they are provided a Privacy Advisory.

NOTE:

Sections 1 and 2 above are to be posted to the Component's Web site. Posting of these Sections indicates that the PIA has been reviewed to ensure that appropriate safeguards are in place to protect privacy.

A Component may restrict the publication of Sections 1 and/or 2 if they contain information that would reveal sensitive information or raise security concerns.
