(2) Cite the authority for this DoD information system or electronic collection to collect, use, maintain and/or disseminate PII. (If multiple authorities are cited, provide all that apply.)

(a) Whenever possible, cite the specific provisions of the statute and/or EO that authorizes the operation of the system and the collection of PII.

(b) If a specific statute or EO does not exist, determine if an indirect statutory authority can be cited. An indirect authority may be cited if the authority requires the operation or administration of a program, the execution of which will require the collection and maintenance of a system of records.

(1) Describe the purpose of this DoD information system or electronic collection and briefly describe the types of personal information about individuals collected in the system.

The ATHD is a single point of entry knowledge center consisting of a core group of tier 1 government/contracted training agents assigned to Fort Eustis, VA and approximately 250+ tier 2/3 training support subject matter experts across proponents/agencies. The ATHD provides 24/7 customer support to Soldiers, civilians, and other service members worldwide who require assistance with their distributed learning, specifically the Army Learning Content Management Capability. Customers are supported via a 1-800 number, a web-based application, and customer submitted email for issue resolution. The trouble ticketing software provides customer support via a COTS Customer Experience (CX) application that routes and tracks customer service requests, identifies trends in customer requests, and links customers to FAQs.

(2) Briefly describe the privacy risks associated with the PII collected and how these risks are addressed to safeguard privacy.

Due to the level of safeguarding, we believe the risk to individuals' privacy to be minimal. The risk associated with providing an individual the opportunity to object or consent is that the individual's personal information can not be maintained, updated or verified.
