g. Summary of DoD information system or electronic collection. Answers to these questions should be consistent with security guidelines for release of information to the public.

(1) Describe the purpose of this DoD information system or electronic collection and briefly describe the types of personal information about individuals collected in the system.

The DARTS application provides the Army a web-based and centralized mobilization readiness processing capability for soldier readiness, deployment, redeployment, post deployment, demobilization, and reconstitution information. DARTS is the Army's only virtual SRP supporting the AC and all mobilizing RC units and personnel. DARTS is used as the authoritative system to validate individual/unit for deployment and redeployment/demobilization. DARTS supports other service personnel and civilian/contractors. The DARTS application receives personnel and unit data from a variety of Army information systems, including the Reserve Component Automated System (RCAS), MEDPROS, eMILPO, Department of the Army Mobilization and Processing System (DAMPS) and Defense Readiness Reporting System - Army (DRRS-A).

(2) Briefly describe the privacy risks associated with the PII collected and how these risks are addressed to safeguard privacy.

SSN numbers and other personal information is being stored and could possibly be compromised to other individuals with access to the data. To address this risk, the data in these fields is being encrypted and access to the data is limited to the developer of the system, the database administrator (DBA), and designated personnel at installation in-processing centers.

h. With whom will the PII be shared through data exchange, both within your DoD Component and outside your Component (e.g., other DoD Components, Federal Agencies)? Indicate all that apply.

i. Do individuals have the opportunity to object to the collection of their PII?

Yes **No**

(1) If "Yes," describe method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object.

DARTS is not the originator of the PII. The individual had the opportunity to object when entering the information in the other systems DARTS interfaces with (see 3a(2)).

j. Do individuals have the opportunity to consent to the specific uses of their PII?

Yes **No**

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

Data requested is mission essential to Department of Army continued operations.

k. What information is provided to an individual when asked to provide PII data? Indicate all that apply.
